

FOR CUSTOMERS' USE ONLY  
1990 Ongoing

Restrooms are not universally available. Sometimes you need a key, and a query to get that key is necessary. It's transactional, both the query and the key. And it's motivational too . . . and use is weighed on necessity. And the generosity of the establishment as well as generous cleanliness of other patrons . . . It's a club, but everyone can get in, no matter how bad or good the behavior . . . Even adequate shoe wear is optional . . . I wouldn't suggest flip flops, but don't tell that to Brittany Spears, she prefers the footloose and fancy free barefoot look.
